## February / février

### ARTICLES

- Aminah Robinson Fayek and Zhuo Sun** A fuzzy expert system for design performance prediction and evaluation 1
- Sy-Jye Guo** Analysis of cycle excavation and productivity of large-scale rock tunnel projects — lesson learned in Taiwan 26
- J. Alberto Escobar, J. Jesús Sosa, and Roberto Gómez** Damage detection in framed buildings 35
- Martin Trépanier et Robert Chapleau** Analyse orientée-objet et totalement désagrégée des données d'enquêtes ménages origine-destination 48
- Lei Xu** Second-order analysis for semirigid steel frame design 59
- Omar H. Choudhry and Ata M. Khan** Effect of route guidance and route scheduling systems on courier pickup and delivery operations: a simulation study 77
- P. Ilios and D.S. Mavinic** Biological nitrification and denitrification of a simulated high ammonia landfill leachate using 4-stage Bardenpho systems: system startup and acclimation 85
- Bruce F. Sparling and Alan G. Davenport** Nonlinear dynamic behaviour of guy cables in turbulent winds 98
- Abdulkader Alkadry and Ata Khan** Methodology for off-line assessment of advanced traffic signal control systems 111
- N.E. Zerrouk et C. Marche** Les prévisions des brèches de rupture des barrages en terre restent difficiles 120
- J.L. Dawe, C.K. Seah, and Y. Liu** A computer model for predicting infilled frame behaviour 133
- J.L. Dawe, Y. Liu, and C.K. Seah** A parametric study of masonry infilled steel frames 149
- M. Gamache, J.F. Blais, R.D. Tyagi et N. Meunier** Microflore hétérotrophe impliquée dans le procédé simultané de biolixiviation des métaux et de digestion des boues d'épuration 158

### BOOK REVIEWS / CRITIQUES DE LIVRES

- Roger A. Dorton** Bridge loads — An international perspective *by* Colin O'Connor and Peter A. Shaw 175
- N. Rajaratnam** A first course in fluid mechanics for civil engineers *by* Donald D. Gray 177
- Note of appreciation / Note de reconnaissance** iii
- Editorial policy / Orientation de la revue** v
- Instructions to authors** I-1
- Recommandations aux auteurs** R-1

## April / avril

### ARTICLES

- Shiping Yang, Bruce H. Kjartanson, and Robert A. Lohnes** Structural performance of scrap tire culverts 179
- Mamdouh M. Elbadry and Amin Ghali** Analysis of time-dependent effects in concrete structures using conventional linear computer programs 190
- Curtis Berthelot, Angela Lang, Norm Burns, Brian Taylor, and Randy Hanson** Automated vehicle monitoring and audit system for administering partnership haul agreements 201
- Sajjad Ahmad and Slobodan P. Simonovic** Integration of heuristic knowledge with analytical tools for the selection of flood damage reduction measures 208
- Janaka Y. Ruwanpura, Simaan M. AbouRizk, K.C. Er, and Siri Fernando** Special purpose simulation templates for tunnel construction operations 222
- J.L. Gordon** Hydraulic turbine efficiency 238

<b>M. Mohammad and J.H.P. Quenneville</b> Bolted wood–steel and wood–steel–wood connections: verification of a new design approach	254
<b>Mohammed A. Salem Hiyassat</b> Construction bid price evaluation	264
<b>Christophe Deniaud and J.J. Roger Cheng</b> Review of shear design methods for reinforced concrete beams strengthened with fibre reinforced polymer sheets	271
<b>Ian Smith, Steven T. Craft, and Pierre Quenneville</b> Design capacities of joints with laterally loaded nails	282
<b>Abdelaziz Hamza, Taha B.M.J. Ouarda, S. Rocky Durrans et Bernard Bobée</b> Développement de modèles de queues et d'invariance d'échelle pour l'estimation régionale des débits d'étiage	291
<b>Linda A. Maddison, Graham A. Gagnon, and John D. Eisnor</b> Corrosion control strategies for the Halifax regional distribution system	305
<b>Jean-Philippe Charron, Jacques Marchand, Benoît Bissonnette et Bruno Gérard</b> Étude comparative de modèles phénoménologiques décrivant le comportement au jeune âge du béton. Partie 1.	314
<b>Jean-Philippe Charron, Jacques Marchand, Benoît Bissonnette et Bruno Gérard</b> Étude comparative de modèles phénoménologiques décrivant le comportement au jeune âge du béton. Partie 2.	323
<b>M. Parvini, S. Pietruszczak, and V. Gocevski</b> Seismic analysis of hydraulic structures affected by alkali–aggregate reaction: a case study	332
BOOK REVIEW / CRITIQUE DE LIVRE	
<b>R. Balachandar</b> High speed flow <i>by</i> C.J. Chapman	339
 <b>June / juin</b>	
ARTICLES	
<b>S.A. Wasay, W.J. Parker, and P.J. Van Geel</b> Contamination of a calcareous soil by battery industry wastes. I. Characterization	341
<b>S.A. Wasay, W.J. Parker, and P.J. Van Geel</b> Contamination of a calcareous soil by battery industry wastes. II. Treatment	349
<b>Donald H. Burn and N.K. Goel</b> Flood frequency analysis for the Red River at Winnipeg	355
<b>Peter H. Bischoff</b> Effects of shrinkage on tension stiffening and cracking in reinforced concrete	363
<b>Adnan Çolak</b> Physical, mechanical, and durability properties of gypsum–Portland cement–natural pozzolan blends	375
<b>Brenda McCabe and Simaan M. AbouRizk</b> Performance measurement indices for simulated construction operations	383
<b>Tariq Shehab-Eldeen and Osama Moselhi</b> A decision support system for rehabilitation of sewer pipes	394
<b>A. Hefny, K.Y. Lo, and L. Adeghe</b> Measurements of laboratory rates of concrete expansion and their comparisons with field rates	402
<b>J. Mirza, M.S. Mirza, V. Roy, C. Lemire, K. Saleh, and S. Tremblay</b> Special repairs to the Bersimis-1 generating tunnel walls to increase power production: a case study	411
<b>M.S. Cheung and W.C. Li</b> Serviceability reliability of corroded steel bridges	419
<b>Matthias Jakob and Peter Jordan</b> Design flood estimates in mountain streams — the need for a geomorphic approach	425
<b>J.A. Kells, R. Balachandar, and K.P. Hagel</b> Effect of grain size on local channel scour below a sluice gate	440
<b>S. Morteza Mousavi, Abolfazl Shamsai, M. Hesham El Naggar, and Mashallah Khamehchian</b> A GPS-based monitoring program of land subsidence due to groundwater withdrawal in Iran	452
<b>Amir M. Halabian and M. Hesham El Naggar</b> Effect of foundation flexibility on seismic response of reinforced concrete TV-towers	465
<b>Diane Saint-Laurent, Bachir N. Touileb, Jean-Phillippe Saucet, André Whalen, Benoit Gagnon, and Tonino Nzakimuena</b> Effects of simulated water level management on shore erosion rates. Case study: Baskatong Reservoir, Québec, Canada	482
<b>Bernard Giroux, Michel Chouteau et Louise Laverdure</b> Évaluation du facteur de qualité sismique au barrage de Carillon (Québec)	496
<b>Yunhe Chen and Xuejun Deng</b> An analytical solution for an infinite pavement strip on elastic foundation	509
<b>A. Melih Yanmaz and Ozgur Cicekdag</b> Composite reliability model for local scour around cylindrical bridge piers	520
NOTES	
<b>Qing-Chao Guo and Yee-Chung Jin</b> Estimating coefficients in one-dimensional depth-averaged sediment transport model	536

<b>Wael Bekheet, Yasser Hassan, and A.O. Abd El Halim</b> Modelling in situ shear strength testing of asphalt concrete pavements using the finite element method	<b>541</b>
--	------------

## BOOK REVIEWS / CRITIQUES DE LIVRES

<b>S.O. Denis Russell</b> Urban stormwater management planning with analytical probabilistic models <i>by</i> Barry J. Adams and Fabian Papa	<b>545</b>
<b>Kenneth C. Johns</b> Behaviour of timber connections <i>by</i> B. Madsen	<b>546</b>

**August / août**

## ARTICLES

<b>F.N. Krampa-Morlu and R. Balachandar</b> A study on flow past a suspended bluff object in an open channel	<b>547</b>
<b>Bougara Abdelkader, Ezziane Karim et Kadri Abdelkader</b> Prédiction des résistances du ciment au laitier durcissant sous une température variable	<b>555</b>
<b>T.G. Brown, I.J. Jordaan, and K.R. Croasdale</b> A probabilistic approach to analysis of ice loads for the Confederation Bridge	<b>562</b>
<b>Andrzej S. Nowak, Chan-Hee Park, and Peter Ojala</b> Calibration of design code for buried structures	<b>574</b>
<b>Amin Ghali, Tara Hall, and William Bobey</b> Minimum thickness of concrete members reinforced with fibre reinforced polymer bars	<b>583</b>
<b>Wahid Nechneh, Jean-Marie Reynouard et Fekri Meftah</b> Un modèle thermo-plastique couplé à l'endommagement pour le béton à hautes températures	<b>593</b>
<b>Michael Isaacson and Sundaralingam Premasiri</b> Hydrodynamic damping due to baffles in a rectangular tank	<b>608</b>
<b>Donald S. Mavinic, Venkatram Mahendrakar, Barry Rabinowitz, Alexandru C. Dumitrescu, Frederic A. Koch, and James L. Barnard</b> Assessment of short-HRT, on-line, fixed-film prefermentation of domestic wastewater for enhanced biological phosphorus removal	<b>617</b>
<b>J. Bettez, R.D. Townsend, and A. Comeau</b> Scale model testing and calibration of City of Ottawa sewer weirs	<b>627</b>
<b>R. Tremblay, P. Léger, and J. Tu</b> Inelastic seismic response of concrete shear walls considering $P$ -delta effects	<b>640</b>
<b>Ezzeldin Yazeed Sayed-Ahmed</b> Behaviour of steel and (or) composite girders with corrugated steel webs	<b>656</b>
<b>M.A. Maes, X. Wei, and W.H. Dilger</b> Fatigue reliability of deteriorating prestressed concrete bridges due to stress corrosion cracking	<b>673</b>
<b>M.K. Verma and R.K. Shrivastava</b> Min-max goal programming: an application to Mahanadi Reservoir Project Complex	<b>684</b>
<b>A.A. Aghakouchak and S.F. Stiemer</b> Fatigue reliability assessment of tubular joints of existing offshore structures	<b>691</b>
<b>Robert Tremblay and Nathalie Robert</b> Seismic performance of low- and medium-rise chevron braced steel frames	<b>699</b>
<b>Murat Saatcioglu, Denis Mitchell, René Tinawi, N. John Gardner, Anthony G. Gillies, Ahmed Ghobarah, Donald L. Anderson, and David Lau</b> The August 17, 1999, Kocaeli (Turkey) earthquake — damage to structures	<b>715</b>

## NOTES

<b>O. Chaallal and D. Gauthier</b> Deformation and ductility considerations of ductile coupled shear walls located in Canadian seismic regions	<b>738</b>
<b>Fazil T. Najafi and Roberto Soares</b> User costs at the work zone	<b>747</b>
<b>O. Chaallal, P. Malenfant et M.-J. Nolle</b> Comportement sismique d'un système formé de murs couplés tronqués et d'un cadre	<b>752</b>

**October / octobre**

## ARTICLES

<b>Sy-Jye Guo</b> Integrating CAD and schedule for identification and resolution of work space conflicts between subcontractors	<b>759</b>
<b>R.L. Pimentel, A. Pavic, and P. Waldron</b> Evaluation of design requirements for footbridges excited by vertical forces from walking	<b>769</b>
<b>Caijun Shi</b> An overview on the activation of reactivity of natural pozzolans	<b>778</b>
<b>Rami H. Haddad and Ahmed M. Ashteyate</b> Role of synthetic fibers in delaying steel corrosion cracks and improving bond with concrete	<b>787</b>
<b>Yi Liu and J.L. Dawe</b> Experimental determination of masonry beam-column behaviour	<b>794</b>

<b>Paul de Leur and Tarek Sayed</b> Using claims prediction model for road safety evaluation	<b>804</b>
<b>H.P. Hong and S. Somo</b> Probabilistic assessment of pavement conditions	<b>813</b>
<b>Cheng-Cheng Chen, Shyh-Yeang Chen, and Jiunn-Jye Liaw</b> Application of low yield strength steel on controlled plastification ductile concentrically braced frames	<b>823</b>
<b>A.J. Cranmer, N. Kouwen, and S.F. Mousavi</b> Proving WATFLOOD: modelling the nonlinearities of hydrologic response to storm intensities	<b>837</b>
<b>Martin Jasek, Marian Muste, and Robert Ettema</b> Estimation of Yukon River discharge during an ice jam near Dawson City	<b>856</b>

## NOTES

<b>A. Osman Akan</b> Tractive force channel design aid	<b>865</b>
<b>Jie Shen and Haowu Liu</b> New visualization method for civil engineering — calibration-free augmented reality based on vision	<b>868</b>
<b>Ashraf El-Assaly, Simaan AbouRizk, and Jane Stoeck</b> Adequate data collection frequency and gauging length for surface condition rating in Alberta	<b>871</b>

## BOOK REVIEWS / CRITIQUES DE LIVRES

<b>Murray C. Temple</b> The Skule story: The University of Toronto, Faculty of Applied Science and Engineering, 1873–2000 <i>by</i> Richard White	<b>875</b>
<b>Colin H. Campbell</b> Staircases: Structural analysis and design <i>by</i> M.Y.H. Bangash and T. Bangash	<b>877</b>
<b>Jacek Mlynarek</b> Geosynthetics and geosystems in hydraulic and coastal engineering <i>by</i> Krystian W. Pilarczyk	<b>878</b>
<b>Nemkumar Banthia</b> Fiber-reinforced cements and concretes <i>by</i> Colin D. Johnston	<b>879</b>

**December / décembre**

## ARTICLES

<b>Antony G. Gillies, Donald L. Anderson, Denis Mitchell, Rene Tinawi, Murat Saatcioglu, N. John Gardner, and Ahmed Ghoborah</b> The August 17, 1999, Kocaeli (Turkey) earthquake — lifelines and preparedness	<b>881</b>
<b>A.M. Abdel-Aziz and A.D. Russell</b> A structure for government requirements in public–private partnerships	<b>891</b>
<b>K.J. Kennedy, Z. Ning, and L. Fernandes</b> Modeling simultaneous removal of primary substrates and chlorinated phenols in upflow anaerobic sludge blanket reactors	<b>910</b>
<b>T. Paulay</b> Seismic response of structural walls: recent developments	<b>922</b>
<b>Ricardo N.F. do Carmo and Sérgio M.R. Lopes</b> Influence of cover on bond of strands prestressed by pretensioning	<b>938</b>
<b>J.H.P. Quenneville and M. Mohammad</b> Design method for bolted connections loaded perpendicular-to-grain	<b>949</b>
<b>Y.-Z. Wang</b> Motion and stability of caisson breakwaters under breaking wave impact	<b>960</b>
<b>Jack Q. Zhao and Lyne Daigle</b> Structural performance of sliplined watermain	<b>969</b>
<b>Jag Mohan Humar, David Lau, and Jean-Robert Pierre</b> Performance of buildings during the 2001 Bhuj earthquake	<b>979</b>
<b>Paul Arrien, Josée Bastien, and Denis Beaulieu</b> Rehabilitation of bridges using aluminum decks	<b>992</b>
<b>Julie Boudreau, Roland Leduc et James R. Wilson</b> Mesure du développement durable : une évaluation semi-quantitative du volet environnemental pour le cas du traitement des effluents d'une papetière	<b>1003</b>
<b>M. Hassaim, J. Rhazi, G. Ballivy et K. Khayat</b> Évaluation de l'état du béton par la technique d'analyse spectrale des ondes de Rayleigh	<b>1018</b>
<b>Carol Roy, Denis Beaulieu et Josée Bastien</b> Utilisation d'éléments structuraux en aluminium dans les ponts routiers : Étude économique et structurale	<b>1029</b>

## NOTE

<b>Mario Lefebvre</b> Au sujet du débit maximal de la rivière Mistassibi durant la période printanière	<b>1041</b>
--	-------------

## BOOK REVIEW / CRITIQUE DE LIVRE

<b>Wei-Chau Xie</b> Non-classical problems in the theory of elastic stability <i>by</i> Isaac Elishakoff, Yiwei Li, and James H. Starnes, Jr.	<b>1046</b>
---	-------------

<b>Author index for Volume 28 / Index des auteurs pour le volume 28</b>	<b>AI-1</b>
